

How to Verify an Enrollment Record

identiMetrics™

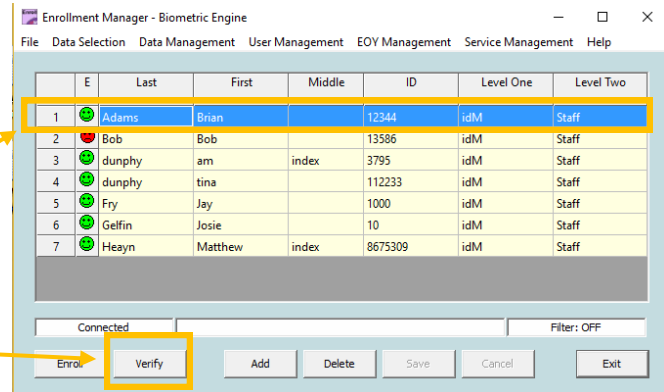

Cheat Sheet

The Verify option in the Enrollment Manager allows one to confirm a person's enrollment record in identiMetrics.

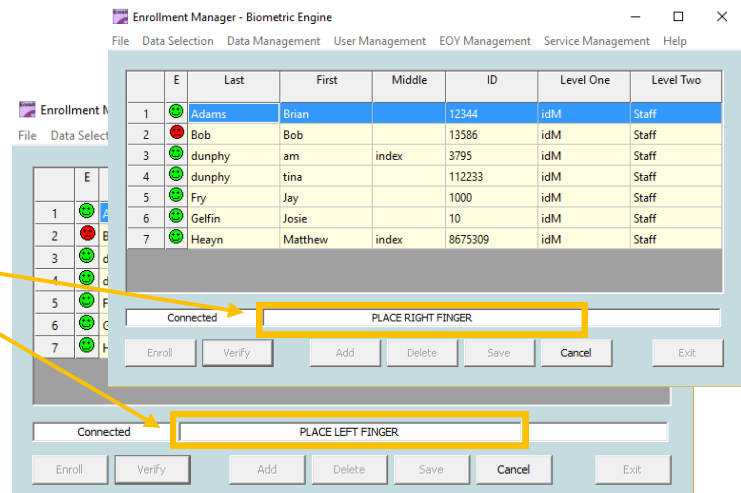

1. Navigate to the Enrollment Manager.

2. Select the name of a user that you want to verify.

3. Click Verify.

4. Scan the right finger and then scan the left finger.

5. If the person enrolled well, you will get the verified message. Click OK.

OR

You may get a message if the wrong person was scanned. Choose your appropriate response depending on the situation.

OR

The person's verification may fail. Choose the appropriate response depending on the situation.

Note: If you choose to un-enroll, you will need to enroll the user again.
